

Evaluation of the project planning.

eTwinning project. eRecycling

* Indica que la pregunta es obligatoria

1. Country *

2. 1.-The Project foster collaboration in all the tasks. It supports peers, shares responsibilities, and communicates effectively across teams through the use of digital tools. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Agree just in some tasks.
- ☐ The project rarely fosters to collaboration

3.

2.-The Project uses Scratch, Micro:bit, Makey Makey, AI tool, Twinspace tools and other digital tools creatively and safely. Helps teachers and students to improve digital skills.

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Only some digital tools were used creatively and safely.
- ☐ Any of the digital tools were used ccreatively and safely.

4. 3.-The Project designs tasks to develop computational thinking such as programming scratch games, microbit.... *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ With support, they help develop computational thinking
- ☐ They have been difficult to understand or apply programming concepts, even with support. They did not help develop computational thinking.

5. 4.- The Project produces original and engaging tasks and foster creativity.

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Creativity is limited or partially developed.
- ☐ Completely disagree

6. 5.-The project contributes to improve communication in written, oral, and digital formats. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ The Project contributes to improve communication just on some occasions.
- ☐ Completely disagree

7. 6.-The Project helps improve critical thinking by analysing environmental issues deeply and proposing meaningful solutions about recycling, reuse, and sustainability. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ It provides little reflection or understanding of environmental issues.
- ☐ Completely disagree

8. 7.-The Project contributes to improve problem solving by technical and collaborative problems in coding and project tasks.

Marca solo un óvalo.

- ☐ Totally agree
- ☐ The Project contributes to improve problem solving with frequent help.
- ☐ Completely disagree

9. 8.-The Project promotes strong commitment through actions like transforming clothes/objects and promoting sustainability in all tasks. *

Marca solo un óvalo.

- ☐ Totally agree.
- ☐ I shows basic awareness but limited action.
- ☐ Completely disagree

10. 9.-The Project encourages actively to create products or final results. High-quality shared output. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ It contributes minimally to collaborative productions or final results.
- ☐ Totally disagree

11. 10.-It designs and integrates STEAM solutions effectively using ultrasonic sensor bins, servo motor recycling system, Makey Makey, Christmas tree... *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ It integrates STEAM tasks but they need lots of support and help to understand them and carry them out.
- ☐ Completely disagree

12. 11.-The Project is clear alignment with official curriculum; learning objectives and competences explicitly linked to standards across subjects. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Mostly aligned with curriculum; some links to subject objectives are clear.
- ☐ Partial alignment; curriculum links are vague or incomplete.
- ☐ No clear connection to curriculum objectives.

13. 12.-Cross curricular integration with meaningful, interconnected learning activities. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ The project integrates just some subjects interconnected.
- ☐ Some subjects included but not always interconnected
- ☐ Completely disagree

14. 13.-Development of key competencies embedded in tasks. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Competencies included but weakly developed.
- ☐ Competencies not clearly addressed.

15. 14.-Activities are fully adapted to primary level. They can be easily adapted to each context, level, difficulties...

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Just some tasks can be adapted to each context, level, difficulties...
- ☐ Completely disagree

16. 15.-The Project foster students motivation and encourage them to be active, participating in research, collaboration and practical tasks. *

Marca solo un óvalo.

- ☐ Totally agree
- ☐ The project just foster Limited active participation; mostly teacher-led.
- ☐ Passive learning dominates; little student engagement.

17. 16.-Well-structured project with clear phases (introduction/problem; investigation; reflection; solutions; creating products, results...)

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Basic structure but weak progression between activities.
- ☐ No clear project structure or progression.

18. 17.-Use of formative and summative assessment; clear rubrics and student reflection.

Marca solo un óvalo.

- ☐ Totally agree
- ☐ Limited assessment methods; mostly informal.
- ☐ No clear assessment approach.
